

**DANBURY ARENA ALERT-*CHANGE IN PROTOCOLS*
AS OF SUNDAY, AUGUST 15TH, 2021
FACE MASKS REQUIRED IN ARENA AT ALL TIMES**

Commencing Sunday, August 15th, 2021, by order of the Mayor of Danbury, the Honorable Joe Cavo, Danbury Arena will require and enforce face mask protocol.

Please have your face mask on covering your nose and mouth before entering the building. And maintain wearing it while inside the building. This applies to all ages, regardless of vaccination status or medical exemption.

We have restricted entering the building to only our side doors, across the street from the city parking garage in order to facilitate managing the face mask requirement.

Guest Safety team members will be at the doors and patrolling the arena to be sure that every skater and every guest complies. We will have a zero tolerance for those not complying with the mayor's orders.

By authority of the Governor of Connecticut, the Arena restricts access to only those individuals who can and are willing to wear a face mask. Under the orders, the Arena does not allow for any exemptions to this policy. If you have a medical reason or exemption or just do wish to wear a face mask covering your nose and mouth, you should not enter the building.

At this time, we have not received specific guidance for on-ice activities, thus we assume that face masks for on-ice activities are voluntary.

Please keep in mind that some groups, teams, schools and leagues may be under third party governance with additional requirements beyond that of the Arena. These are self-governed by the organizations, and it is the responsibility of that group or team to follow these additional protocols. The Arena does not enforce third party protocols. The Arena will have different groups in the building at the same time, so some groups may be following enhanced guidelines, while others do not. But all guests are required to comply the Arena's face mask protocol as stated.

Keep in mind, this is a fluid situation, and the Arena may receive new guidance which it will enforce immediately.

Be Safe. Mask Up. Get Vaccinated.
